

ORNIX Age and Safety Policies

Play Stash and Little Worlds product lines

These policies explain ORNIX's intended age ranges and general product-safety expectations. The recommended age shown on an individual product controls if it differs from the general product-line recommendation.

Play Stash Age and Safety Policy

AGES 6+

**SELECT PRODUCTS:
AGES 8+**

Play Stash products are designed for children ages 6 and older. ORNIX does not design or market Play Stash products for babies, toddlers, preschool children, or children under age six.

Most Play Stash products are recommended for ages 6+. Products involving more advanced assembly, dexterity, patience, or complexity may be recommended for ages 8+ or older. The applicable recommended age is displayed with each product.

Play Stash products may contain small parts.

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

Age recommendations consider the product's size, components, intended method of play, required dexterity, assembly requirements, and reasonably foreseeable handling. Age recommendations do not replace appropriate adult judgment or supervision.

Inspect products before use. Discontinue use if a product becomes cracked, broken, develops a sharp point or edge, or releases a component. Product-specific safety information controls if it differs from this general policy.

Little Worlds Age and Safety Policy

AGES 6+

**SELECT PRODUCTS:
AGES 8+**

Little Worlds playsets are designed for children ages 6 and older. The sets include miniature figures, scenery, connectors, accessories, and other small components intended for imaginative play and age-appropriate assembly.

Unless a product listing states otherwise, Little Worlds playsets are recommended for ages 6+. A set requiring more advanced assembly, dexterity, or care may be recommended for ages 8+ or older. The applicable recommended age is displayed with each product.

Little Worlds playsets contain small parts.

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

Age recommendations consider component size, assembly complexity, required dexterity, intended play pattern, and reasonably foreseeable handling. Adult assistance may be appropriate during initial assembly.

Inspect all components before use. Discontinue use of any component that becomes cracked, broken, develops a sharp point or edge, or otherwise appears damaged. Product-specific safety information controls if it differs from this general policy.
